### Unseen comprehension

Read the passage carefully & answer the questions-

In ancient times, people travelled on foot or on back of animals. Then, they invented the wheel. This leads to the development of carts. People began using horse – carts and bullock – carts to go from one place to another these were however, very slow means of transport. Slow means of transport have now been replaced by faster ones. We use buses, cars, scooters, trucks, trains, ships, aeroplanes. They help us cover distances much faster than before. India has a well developed network of roads, railways, airways and waterways.
